

THEODORE S. LAWRENCE, M.D., Ph.D., FASTRO, FASCO, is Director of the University of Michigan Comprehensive Cancer Center and the Isadore Lampe Professor and Chair of the Department of Radiation Oncology. He is President of the Radiation Oncology Institute and immediate Past President of the Society of Chairs of Radiation Oncology. He is a member of the Board of Scientific Advisors of the National Cancer Institute and a member of the Institute of Medicine of the National Academy of Sciences. Dr. Lawrence is an editor of *Translational Oncology* and the *Cancer Journal*, the associate editor of *Seminars in Radiation Oncology*, a senior editor for *Cancer Research*, and a scientific editor for *Cancer Discovery*. He has been President of the American Society of Radiation Oncology (ASTRO), Chair of the National Cancer Institute Board of Scientific Councilors, and a member of the Board of Directors of the American Society of Clinical Oncology (ASCO). For his accomplishments, he has been awarded the ASTRO Gold Medal and of the Israeli Society of Clinical Oncology, which are the highest awards conferred by those societies, an ASCO Statesman Award, and the Radiological Society of North America's (RSNA) Outstanding Researcher Award.

Dr. Lawrence's interests in the laboratory are focused on chemotherapeutic and molecularly targeted radiosensitizers. His clinical research combines these laboratory studies with conformal radiation guided by metabolic and functional imaging for the treatment of patients with gastrointestinal and central nervous system malignancies. He is the author of over 250 peer-reviewed publications, and his work has been continuously supported by the National Cancer Institute for over 20 years.

Dr. Lawrence joined the faculty of the University of Michigan in 1987, following a fellowship in medical oncology and a residency in radiation oncology at the National Cancer Institute. He received his research degree in cell biology from the Rockefeller University, followed by his medical degree from Cornell University and an internal medicine residency at Stanford University.
