

GARY I. COHEN, M.D., FACP, FASCO, is immediate past Director of the Sandra and Malcolm Berman Cancer Institute at Greater Baltimore Medical Center (GBMC), which he established in 1990. The Berman Cancer Institute has been listed by U.S. News and World Report as one of the top 50 cancer programs in the country.

Dr. Cohen completed his undergraduate training at Duke University and attended medical school at the University of Maryland. He subsequently completed his fellowship training in medical oncology at the Dana Farber Cancer Institute of Harvard University. He remained on the staff at Harvard to pursue his research interest in bone marrow cell growth. During that time he also completed a fellowship in hematology. He currently holds an appointment as Associate Professor in the Department of Oncology at the Kimmel Cancer Center at Johns Hopkins, and is board certified in internal medicine, medical oncology and hematology. He is a Fellow of the American Society of Clinical Oncology and Fellow of the American College of Physicians.

Dr. Cohen has co-authored numerous articles in the medical literature on various aspects of clinical cancer research. He has been an active participant in the ECOG-ACRIN national cooperative clinical trials group, chairs the Community Scientific Committee, serves as community co-chair of the Melanoma Committee and sits on the ECOG-ACRIN Executive Council. He is a Founder and Board Member of Gilchrist Hospice Care in Baltimore. He has served on many committees and boards for health related organizations including the Board of Directors of American Society of Clinical Oncology. He currently serves as Administrative Director of the Kimmel Scholars program of the Sidney Kimmel Foundation, which awards over \$3 million per year to outstanding young cancer scientists. He has won housestaff teaching awards on several occasions and has regularly been listed in the physician survey by Baltimore Magazine as "Top Doc" in Oncology.
